

Introducing a new version of our **Stage Box (SB)** product line, the **MPS-SB-19MU-LP**. This free standing **Stage Box** is a sleeker and lower profile version of our standard **Stage Box**, designed to accept a combined total of 19MU (module units) of our many **MPS** connector panels.

This **Stage Box** can be supplied with cutouts in either or both end plates for a variety of multi-pin connectors or Kellems, (cable crips) with size determined by you. Or we can supply the **Stage Box** complete with connector or Kellems installed, with our cable harness wired to your specifications.

As with all Stage Boxes this units come complete with integrated handles at either end to ease relocation of the unit and protection of the standard unit, 4 rubber feet are

installed to protect the surface on which it is placed and restrict movement of the unit when inserting plugs into the connectors.

This modular approach to your free standing **Stage Box** needs provides the flexibility you need to meet your clients changing requirements with ease.

As with all our enclosures and adapters a set of **Label Strips** (2), designed to snap on to the supplied retainer clips and hide all the **MPS** connector panel mounting screws, thereby presenting a professional look and finish for your client and your installation.
