

Modular Panel System (MPS) Enclosures: We offer several types of enclosures and adapter rings. Included with each is a pair of label strips designed to clip over the top and bottom mounting screws providing identification for the modules installed.

Enclosures:

Surface Mount Chases (SMC): Offered in 8MU (7.00"), 16MU (14.00"), 19MU (17.125") and 28MU (25.00") or for larger sizes combine Back Boxes to create 32MU, 38MU, etc... All with **Knockouts**

Stud Mounted Back Box (SMBB): A 16MU (14.50") adjustable enclosure with adapter ring and knockouts designed to be installed in the wall between 16" studs.

Adapter Rings:

Flush Mount Rings (FMR): Offered in standard lengths of 7MU, 14MU, 19MU and 28MU or longer if required in increments of 0.875" These Adapter Rings are designed to attach to the front edge of an installed Screw Cover Wire-way/Raceway. Again supplied with a pair of label strips that clip over the mounting screws for module identification.

Rack Adapter (RACK1 & SD): We offer 2 different 19" rack (4RU) adapters, one fixed and one which can be swung open, providing access to the rear for service / installation.
